

Stella Oseyomon

Full stack Developer

Full stack Developer with 3+ years of experience building scalable, user-friendly web applications using React, Next.js, NodeJS, NestJS, and TypeScript. Proven in optimising performance, integrating RESTful APIs, and delivering exceptional user experiences. Passionate about leveraging innovative technologies for impactful healthcare solutions. Fluent in English, with strong problem-solving and collaboration skills.

Work Experience

Full Stack Developer

The Dataseed Limited
Lagos, Nigeria. (Hybrid)

August 2024 – Present

- Spearheading the development of the user interface for a lending platform, implementing modern frontend technologies such as **React.js, Redux, TypeScript**, and **Vite** to ensure a seamless user experience.
- Collaborating closely with backend developers to integrate APIs and ensure smooth functionality of the credit-based decision-making system, leveraging tools like **Node.js, Express**, and **PostgreSQL**.
- Design reusable **React** components and implement responsive UI features, improving the platform's usability and customer engagement for an underserved market.
- Optimising the frontend codebase by introducing **Vite** for faster build times and improved developer experience, enhancing overall project productivity.

Tech stack: React, Redux, SASS, Tailwind CSS, Vite, NodeJS, Express, PostgreSQL, Agile and Scrum Methodologies, Git, GitHub, NPM/Yarn, Jira

Full Stack Developer

Babelos Limited
Lagos, Nigeria. (Remote)

August 2022 – November 2024

- Collaborated with other developers to build a financial app from scratch using **Next.js, React Native**, and **SCSS**, helping over **5K+** users manage their finances.
- Led a team of developers and designers to build language applications from scratch, aiding **100K+** people in learning various languages.
- Developed reusable React components and integrated Redux for seamless state management, improving app scalability and maintainability by 30%.
- Migrated and redesigned an app from CRACO to **Next.js** and **SCSS** alongside another developer, accelerating its speed by at least 15 seconds and improving its responsiveness.

Tech stack: Next.js, Redux, SASS, Styled-components, Tailwind CSS, Jest, React Testing Library, NodeJS, NestJS, Express, MongoDB, Agile and Scrum Methodologies, Git, GitHub, NPM/Yarn, Slack, Jira

Frontend Developer

Ojira Soft Limited
Berlin, Germany. (Remote)

May 2022 – January 2023

- Increased the company's revenue by working alongside other developers on user-friendly web applications like Setlinn which were pivotal in driving a substantial **40%** surge in the user base using **React Bootstrap, Next.js** and **Redux**.
- Created and implemented high-quality, reusable **React** components, enhancing user experience and design efficiency, driving a 40% increase in user base.
- Boosted business partnerships by **20%** by independently engineering the company's website Ojira by building dynamic **React** components for optimised performance and simplified state management.
- Executed the migration of a WordPress application (Setlinn) to **Next.js** alongside **3** other developers, which accelerated the application's loading time by **10** seconds and increased the overall user experience by **30%**.

Tech stack: Next.js, Redux, React-Bootstrap, SASS, Styled-components, Agile and Scrum Methodologies, Git, GitHub, NPM/Yarn, Slack, ClickUp

Full Stack Developer (Intern)

Stutern
Lagos, Nigeria. (Remote)

February 2021 – December 2021

- Established a foundation in tech by learning to use popular developer tools like Git, GitHub, VS Code, and Chrome Dev Tools.
- Transform user research to high-fidelity interactive designs and applications using HTML, CSS, JavaScript, React.js, Redux, Node.js, Express.js, MongoDB and PostgreSQL.

Tech stack: ReactJS, Redux, Styled-components, Jest, React Testing Library, NodeJS, Express, MongoDB, Agile and Scrum Methodologies, Git, GitHub, NPM/Yarn, Slack, Trello

Volunteer Experience

Software Engineering Lead Mentor

Tech Uplift
Lagos, Nigeria. (Remote)

January 2024 – Present

Tech Uplift aims to create a supportive community, provide access to experienced mentors, and encourage self-motivated learning pathways for individuals aspiring to break into or advance their careers in the tech industry.

- Mentored 15+ aspiring developers, helping them secure internships and junior developer roles in top tech companies through weekly code reviews, career guidance, and technical training.
- Introduced mentees to industry best practices in React, Next.js, and JavaScript, leading to a 30% improvement in their code quality and project delivery times.
- Organized workshops on effective collaboration and tool selection, empowering mentees to excel in team-based environments.
- Developed a structured learning pathway that increased mentee engagement and retention by 40%.

Education

- **Bachelor of Science**, University of Lagos, Nigeria

March 2014 – November 2017

Skills

- **Languages:** JavaScript, Typescript
- **Tools:** Git, GitHub, VS Code, Vite
- **Frameworks:** ReactJS, Next.js, Redux, Zustand, NodeJS, Express, NestJS
- **Styling Frameworks:** CSS, SCSS, Tailwind CSS, Ant Design, Material UI, Styled components
- **Testing & Methodologies:** TDD, Jest, React Testing Library, Unit Testing, Integrated Testing
- **DevOps & Containerization:** Docker, Kubernetes

Languages

- **English:** Fluent
- **German:** Gothe Zertifikat B2

Interest

- **AWS**
- **Artificial Intelligence**
- **Machine Learning**
